Top Skills

Security Audits

Risk Assessment

Third Party Risk Management (TPRM)

Certifications

BWSI Python Core 2024 | MIT Beaver Works Summer Institute course

Prerequisite Course for Cyber Security 2024 | MIT Beaver Works Summer Institute course

Honors-Awards

AP Scholar with Honor

National Honor Society

#1 National Junior Handler AKC

Titan Booster Club Senior Athletic Scholar Award

Ashley Libasci

Math + CS @ UIUC ’28 | interested in AI, software, and quantitative problems | prev. BCU, MIT Beaver Works

Glenview, Illinois, United States

Summary

I am a Mathematics and Computer Science student at the University of Illinois Urbana-Champaign. I am interested in software, AI, and applied math, and in building things that combine them; most recently, a full-stack web app that I designed and deployed on AWS using Claude Code and BMAD.

Experience

BCU

BCU Cybersecurity Intern

June 2026 - August 2026 (3 months)

Vernon Hills, IL

• Performed security audits of BCU's vendors and contingent workers

• Audited BCU's third-party security standards documentation

• Reviewed the combined vendor portfolios of BCU and its merger partner, auditing every vendor for valid contracts

• Proposed phishing simulations, employee training content, and post ideas for BCU's security awareness team; recommendations were approved and implemented

• Presented the intern project to BCU's Executive Leadership Team

Massachusetts Institute of Technology

MIT BWSI Cyber Security Student Intern

July 2024 - August 2024 (2 months)

Attended an intensive program focused on cyber security as part of MIT's competitive BWSI program. Learned key skills in Linux, steganography, reverse engineering, tapping into networks, SQL injection, reflective css, IoT pen-testing, whaling and phishing attacks, side channel attacks, and quantum circuits. Attended seminars from professionals at Raytheon, NASA, MIT, Draper, and Lincoln Laboratory.

Glenbrook South High School

Engineering Lab Aid

January 2023 - June 2024 (1 year 6 months)
Glenview, Illinois, United States

Lab Aid for engineering maker space at Glenbrook South High School. Assisted younger STEM students with engineering classwork and enabling students to be productive. Helped with problem solving and general troubleshooting.

Northwestern University
Computer Engineering Student
June 2023 - July 2023 (2 months)
Chicago, Illinois, United States

Northwestern Internet of Things Course at Windy City Labs and the Bosch Connectory. Project lead for creating and coding capstone project: Harry Potter wand for controlling lights through motion. Developed IoT devices leveraging Argon microcontroller in C++, VSCode, Node Red, Blynk, MQTT, GitHub, 3D printing and motion sensors. Learned leadership and team building skills.

University of Illinois Urbana-Champaign
Aerospace Engineering Summer Program
June 2023 - June 2023 (1 month)
Urbana-Champaign Area

Aerospace engineering summer program participant at the University of Urbana-Champaign. Learned flight mechanics and aerospace design, rocket propulsion, aerodynamics, orbits, and navigation. Created model gliders and tested rockets with egg-drop launches, experimented with wind-tunnels and flight simulations. Developed team-building, physics, and modeling skills.

iD Tech Camps
2 months

Python Coding and Intro to Machine Learning
July 2020 - July 2020 (1 month)

Core concepts of machine learning and Python. Learned how to use NumPy, Pandas, Matplotlib, and Skit-Learn.

Coding Apps & Games with C++ Class
June 2020 - June 2020 (1 month)

Fundamentals of C++, created arcade-style games, and learned basic coding principals.

Education

University of Illinois Urbana-Champaign

Mathematics and Computer Science · (August 2025 - May 2028)

Glenbrook South High School

High School Diploma · (August 2021 - May 2025)
